Salman Sajid

Senior Frontend Developer at DigitalTribe

Lahore • +92 3104686610 • salmansajid141@gmail.com • linkedin.com/in/salman-sajid-77297b1ba

MERN Stack Developer with over 5 years of experience specializing in React.js and Next.js. Proven track record of building intuitive, high-performance web applications, integrating advanced features, and delivering user-friendly interfaces. Skilled in backend development with Node.js, Express, Nest.js, and databases (MongoDB, PostgreSQL, Supabase), collaborating with cross-functional teams to streamline processes and enhance user engagement.

SKILLS

- HTML 5
- CSS
- JavaScript
- TypeScript
- React Js
- NextJs
- Redux
- Zustand
- Material Ui
- Tailwind
- shadcn/ui
- Node Js
- Nest Js
- Express
- PostgreSQL
- MongoDB
- Supabase
- git

EDUCATION

Computer Science
University Of Arid Agriculture, Murree Road — Sahiwal • 2016 - 2020

F.sc Pre Engineering
Punjab College — Sahiwal

WORK EXPERIENCE

DigitalTribe — **09/2026 - Present**
Senior Frontend Developer — **Lahore, Pakistan**

Working as a Senior Frontend Developer, leading the development of scalable, high-performance web applications using React.js, Next.js, and TypeScript. Responsible for architecting reusable component systems, guiding frontend best practices, and collaborating with design and backend teams to deliver polished user experiences.

Xeven Solutions — **07/2025 - 07/2026**
MERN + Next.js & NestJS — **Lahore, Pakistan**

Worked at Xeven Solutions as a Frontend/Fullstack Developer, focusing on building web applications using Next.js, NestJS, and PostgreSQL. Gained hands-on experience in developing scalable backend APIs, integrating frontend interfaces, and working with modern web technologies to deliver efficient and maintainable solutions.

Argon Tech Inc. — **11/2022 - 07/2025**
React/Next JS Developer — **Lahore, Pakistan**

- Built and maintained responsive, modular interfaces using Next.js, React.js, and TypeScript.
- Designed custom components and UI/UX with Tailwind CSS and Material UI, ensuring pixel-perfect, mobile-responsive layouts.
- Managed global and local state with Redux and Zustand, simplifying app architecture and improving performance.
- Integrated RESTful APIs and collaborated with backend teams on blockchain network integrations.
- Maintained high code quality through code reviews, reusable component libraries, and consistent refactoring.

XISLABS — **06/2021 - 11/2022**
React JS Developer / Front End Developer — **Lahore, Pakistan**

- Built dynamic web pages using HTML5, CSS3, and TypeScript.
- Improved application performance by implementing Redux for state management.
- Integrated RESTful APIs and enhanced frontend functionalities using React.js.

Workwox **02/2021 - 05/2021**
React Js Intern **Sahiwal, Pakistan**

- Assisted in developing frontend components and gained practical experience with React.js.

PROJECTS

The Business Hub Pakistan
11/2025 - Present

Meer Group

Tech: React.js, Supabase (auth + DB), Tailwind CSS, shadcn/ui, N8N Automation, ApexCharts

- Developed a responsive, role-based web app with React.js and Vite for admin, investor, and founder portals
- Implemented authentication and data flows with Supabase (auth, database, real-time) and role-based routing
- Built reusable UI with Tailwind CSS and shadcn/ui for consistent, accessible components
- Integrated frontend with Supabase APIs for proposals, users, support tickets, and bulk notifications
- Delivered admin analytics (signups, logins, blog views, lead trends) and dashboards using ApexCharts
- Collaborated with product/backend to ship features such as proposal workflows, verification, and bulk actions
- Optimized front-end performance and UX with lazy loading, code splitting, and responsive layouts

Galileo Protocol
11/2022 - 07/2025

Argon Tech Inc.

Tech: React.js, Redux, Material UI (MUI), JavaScript

- Developed and maintained a responsive and user-friendly frontend application using **React.js**
- Implemented **Redux** for state management to handle complex UI and application data flows
- Built reusable and consistent UI components using **Material UI (MUI)**
- Integrated frontend components with backend APIs to support platform functionality
- Collaborated closely with backend and product teams to deliver new features
- Optimized frontend performance, improving load times and overall user experience

Voting Platform
12/2022 - 01/2023

Argon Tech Inc.

Tech: React.js, Redux, Bootstrap, Chakra UI, JavaScript

- Developed a responsive web application for community engagement and collaborative decision-making
- Implemented features for viewing, submitting, voting, and commenting on proposals
- Managed application state using **Redux** for efficient data handling
- Built admin functionality for managing proposals and tags
- Optimized UI for performance, usability, and accessibility

Tammam
03/2022 - 08/2022

XISLABS

Tech: React.js, JavaScript, REST APIs

- Developed a platform allowing admins to create and assign dynamic forms to users
- Enabled users to submit completed forms as reports for review
- Implemented admin workflows to **accept or reject reports**
- Streamlined data collection and reporting processes for improved efficiency

Fatoraty
09/2021 - 05/2022

XISLABS

Tech: React.js, Redux, Bootstrap, JavaScript

- Developed a POS web application for managing products, customers, inventory, and invoices
- Built responsive and reusable UI components using **React.js** and **Bootstrap**
- Implemented state management with **Redux** for efficient data handling
- Integrated frontend with backend APIs to ensure smooth data flow
- Optimized performance and usability for small business retail workflows
